Editor's Message:

It's later than usual, but this issue shows the lists of awards at our March show.

October means it's auction time! We will again, in addition to the plants, be auctioning off a copy of OrchidWiz (more details on the next page about this software). There will be a reserve bid of a hundred dollars on it. Our meeting room has been moved to the chapel, which is at the south end of the building. If you enter from parking lot N on the south side, it is the first room on your right, immediately on entering. If you are a novice grower, please identify yourself as such and we will try to pair you up with an experienced grower who can tell you if a plant is a good "beginner" plant. See you there! (A complete list of meeting dates for this year is on page 8.)

What is OrchidWiz

OrchidWiz is an easy-to-use software application for orchid research, discovery and to help growers keep track of their orchids. It was designed with three primary goals in mind: (1) Ease-of-use; (2) Accuracy; and (3) Completeness.

OrchidWiz is so intuitive that anyone who can use a computer mouse can benefit from it. There are thousands of OrchidWiz aficionados around the world. Many world-class institutions use OrchidWiz for their basic research needs, i.e., Selby Gardens, the Smithsonian Greenhouse and the Singapore Botanic Gardens. More than 200 orchid nurseries and 330 Orchid Society judges have licensed OrchidWiz, another testimony to its breadth and accuracy.

Discover Orchids

- Inventory and track your own orchids in the OrchidWiz Journal
- Add your own photographs into the Journal.
- Almost 40,000 color photographs of orchids.

- Photographic references for almost 16,000 species.
- Look-up orchids by new taxonomic names or by older more familiar Sander's names
- Information on more than 29,000 species.
- Genealogy charts for more than 127,000 hybrids.
