<i>Arethusa bulbosa</i>	Dragon's-mouth	mid June to early July	rare
<i>Calypso bulbosa</i>	Eastern fairy-slipper	late May to mid June	occasional
<i>Coeloglossum viride var. virescens</i>	Long bracted green orchid	late May to mid June	occasional
<i>Corallorhiza maculata var. maculata</i>	Spotted coralroot	through July	occasional to frequent in localized areas
<i>Corallorhiza striata</i>	Striped coralroot	late May to mid June	occasional
<i>Corallorhiza trifida</i>	Early coralroot	late May to early June	occasional
<i>Cypripedium arietinum</i>	Ram's-head lady's-slipper	through June	rare
<i>Cypripedium parviflorum var. pubescens</i>	Large yellow lady's-slipper	early June to early July	common
<i>Cypripedium parviflorum var. makasin</i>	Northern small yellow lady's-slipper	late May to mid June	frequent
<i>Cypripedium passerinum</i>	Sparrows egg lady's-slipper	late June to mid July	very rare
<i>Cypripedium reginae</i>	Showy lady's-slipper	late June to mid July	frequent in localized areas
<i>Goodyera repens</i>	Lesser rattlesnake orchid	early July to early August	occasional
<i>Liparis loeselii</i>	Loesel's twayblade	through July	occasional
<i>Listera auriculata</i>	Auricled twayblade	through July	seen only once
<i>Listera borealis</i>	Northern twayblade	mid June to mid July	very rare
<i>Listera cordata</i>	Heart-leaved twayblade	late June to mid July	occasional in localized areas
<i>Malaxis brachypoda</i>	White adder's-mouth	through July	rare
<i>Malaxis paludosa</i>	Bog adder's-mouth	through July	very rare
<i>Malaxis unifolia</i>	Green adder's-mouth	early July to early August	very rare
<i>Platanthera aquilonis</i>	Northern green bog orchid	through July	common
<i>Platanthera dilatata var. dilatata</i>	Tall white northern bog orchid	through July	occasional
<i>Platanthera huronensis</i>	Green bog orchid	through July	common
<i>Platanthera obtusata</i>	Blunt-leaved rein orchid	through July	frequent
<i>Platanthera orbiculata</i>	Pad-leaved orchid	through July	occasional
<i>Spiranthes lacera var. lacera</i>	Northern slender ladies'-tresses	through July	occasional in localized areas
<i>Spiranthes romanzoffiana</i>	Hooded ladies'-tresses	mid July to mid August	occasional to frequent in localized areas

**** Occurrence**

Common: expect to find this in most places within an area - don't have to look too hard to find it.

Frequent: expect to find it in most places within the area - but you will have to look to find it.

Occasional: scattered throughout the area - but not in any numbers - you may have to know the preferred habitat to find it.

Rare: expect to spend a substantial amount of time in preferred habitat to find this one.

Very rare: lady luck will have to be with you on this - even in the preferred habitat.
